A silent compressed air service and sign & banner hanging service are available. Availability of these services may vary by location. When requesting 240 Volt Service (Coliseum only) or 208 Volt service or other 'Special Requirements', please forward all available information. Quotations on request.

Outside Exhibitors:

The minimum order outdoors is a 1500 watt duplex receptacle. Power is not available to the outside centre aisle. The 'Advance Price' discount is not available. Outside exhibitors should use 'Regular Price' for orders placed prior to March 9, 2010. Orders placed after that date will be subject to a 25% premium and availability is not guaranteed.

- Additional wiring rate is \$92.00/hour from 8:00 a.m.- 4:30 p.m. weekdays. Double time is applicable to all other times.
- Light rentals include power for rented lights only.
- Row booth power is installed on the back line of the booth. Island booth power will be placed in the centre or one specific location if requested in advance. A \$32.00 surcharge will apply to each alternate or additional location.
- PST of 8% and GST of 5% are applicable to all items. If PST Exempt, please forward a signed copy of your 'Ontario Retail Sales Tax Purchase Exemption Certificate.'
- REGULAR PRICES WILL BE CHARGED ON ALL ACCOUNTS NOT PAID ON OR BEFORE MARCH 9, 2010. ORDERS WILL NOT BE INSTALLED UNTIL PAYMENT IS RECEIVED. CERTIFIED CHEQUE OR CASH ON SITE.**
- A 50% charge may apply to cancelled orders. **An additional \$80.00 charge will apply to orders placed after the show has opened or to service calls resulting from a problem with exhibitor equipment or circuit overloading.**

Please note that only electrical equipment with certification labels acceptable to the Electrical Safety Authority for use in Ontario can be energized. ESA recognized labels can be found on the website: www.esainspections.net & follow the appropriate links.

* A 600 watt receptacle is part of a circuit shared with others. A 1500 watt receptacle has a dedicated circuit breaker. Please be careful in calculating your circuit requirements to avoid unnecessary additional costs. No circuit comes with surge or GFI protection. Should you require protection, please make the appropriate arrangements prior to move-in.

We recommend that exhibitors with (sensitive) electronic equipment order a minimum of one 1500 watt separate circuit to minimize problems caused by overloaded shared circuits or harmonics. Any electronic equipment not rated with a T.H.D. (total harmonic distortion) of 5% or less may be disconnected if it causes a problem.
